Dear sportfriends,

A vibrant city of the Canary Islands, an atlantic town more than 500 years old, Las Palmas invites you to the **44th International Sportsfestival "BLUME - GRAN CANARIA"**. The official programme of the **44th International Sportsfestival "BLUME - GRAN CANARIA"** will take place between the 27th, November and the 5th, December 2004. Last year many international clubs participated in the biggest festival of non-competitive General Gymnastics of the Real Spanish Gymnastics Federation (R.F.E.G.) and the Spanish Association Sports for All.

Like previous festivals, we will not organise a competition, but wish only to share the message of these days of gymnastics with others: "Enjoying the fascination of gymnastics together". We would like to remind you that the temperature in Gran Canaria in winter is about 20/25 degrees. The programme includes outdoor sports activities in traditional places or beaches of Gran Canaria. This year are included the 4th Open Bridge Tournament "**VI Trofeo Open Bridge BLUME – GRAN CANARIA**" and the 3rd Open Team Gymnastics Tournament "**VI Torneo Open Team Gymnastics BLUME – GRAN CANARIA**". The official programme contents two sport-shows outdoors: the matinee on Thursday (2.12.2004) in Collegium Claret, Tamaraceite and the closing ceremony on Sunday (5.12.2004) in the Sportsuniversity Stadium of Las Palmas. Eleven sport-shows will take place indoors in Las Palmas, Maspalomas, Tafira, Telde, Arucas, Santa Brigida and Ingenio.

Are you prepared to participate this year in Las Palmas? We can apologise the preparation for your participation as follows:

1. Do you want to make gymnastics on the beach of Maspalomas or Playa del Ingles?
2. Are you an enthusiastic gym-group with fantasy?
3. Is your age between 0 and 130 years?

If your answers are positive and you think you have enough imagination to prepare two or three performances with the maximum time of 10 min, then the next step is to clarify your flight and accommodation in your travel agency.

We cordially invite all member federations of the international gymnastics family to attend the **44th International Sportsfestival "BLUME - GRAN CANARIA"**.

Best regards

Jesús Telo Núñez
President of the OC "BLUME - GRAN CANARIA"

800. BLUME-GRAN CANARIA Sportsfestival-Tours

Have you notice that the isle of Gran Canaria not only shows bananas, tomatoes, the beach of Playa del Ingles or the highway from the airport to Maspalomas - but also pine-forest, beautiful mountains, valleys and lakes, too? **Get on and let's go!**

801 Isle-Tour

We start in the westcoast of the Isle, so that we can look the vibrant metropolis of the island, LAS PALMAS. After that comes the Contrast: wide, green bananaplantations and small, white houses build on the rocks inside the sea. Afterward we go through the second highest bridge of Spain (128 m) and visit the landmark of the island, the rockmonolith „Dedo de Dios“ (god's finger). At the westcoast we'll find the highest steel coast rocks of the island. The North transform slowly into the South arriving the village San Nicolas, where the wellknown mineral rocks are situated in Veneguera. From „little Venice“ at the harbour of Puerto de Mogan visiting the yachting harbour of Puerto Rico we arrive again at Maspalomas where the lighthouse will welcome us.

802 Panorama-Tour

A real treat for each mountains- and nature fan, because the tour leads us through the nicest lake- and mountains landscape of Gran Canaria. The tour goes through the central part of the island and we visit the highest points, for example the „Pico de las Nieves“ (altitude:1.949 m), the volcanic zone of Roque Bentaiga and Roque Nublo.

803 Guanchen-Tour

Our first destination is Fataga, a typical village of Gran Canaria enclosed in fruit-trees. Afterwards we visit San Bartolome de Tirajana, the administrative capital of the touristical metropolis surrounded by high mountains. The next destination leads us to a green sea of palms called Santa Lucia and wellknown for their fruitliqueur. After Agüimes, one of the oldest sites of the island, we arrive the caves of Guayadeque. In the calm of the deep canyon are located the caves where the aborigines, „Guanches“, of Gran Canaria lived.

804 Las Palmas

The capital of the island with 400.000 inhabitants offers a lot of sight-seeing in a closed area. We begin with the great Atlantic port of Las Palmas, „Puerto de la Luz“. The little castle de la Luz was the first defence against pirates and build in the old Spanish stile of the 15th century. Afterwards we visit the old town of Las Palmas, Vegueta, including the cathedral Santa Ana and the pedestrian and shopping Centre, Triana, where we will stop for a short shopping walk. The great beach of Las Palmas, Canteras, will be our next stop where we will recognise the colourful life of the city.

805 Market place San Mateo

It is the greatest rural market of Gran Canaria with great tradition. See the „canarios“ by haggling about cattle and fruits and enjoy the day with a „copa“ (drink) and a „tapa“ (snack). Afterwards we visit the cathedral of Teror which reminds the appearance of the Madonna on a pine on the 8th, September 1481. The date is the most important religious celebration with the greatest pilgrimage of the Canary Islands.
